

The draft bill can be summarized as follows:

**Bill on Reacquisition of Condemned Property**

**Section 1:** This section gives certain right to the condemnee to recover title to the property in the case where the taking was "pretextual" or where the public use ceases. This concept is taken from S.B. 2986 and similar bills in last year's session, as well as present provisions in Iowa's condemnation law and a couple of other states.
