

HIREC Membership Application

HIREC Networking Advantage & Educational Events

The Hawaii International Real Estate Council (HIREC) is here to help members develop business opportunities related to the growing "international" market. It's an opportunity for members with an interest in international real estate to come together to network and learn. HIREC was awarded "Silver Council" by NAR's Global Section, for their hard work and dedication. The programs and networking opportunities well-exceeded most Councils and HIREC is committed to doing more for its members in 2019.

HIREC's Mission

HIREC provides member benefits to enable members to enhance their professional performance in a changing international marketplace and establish themselves as the leading professionals within the real estate-related industry. HIREC accomplishes this mission by providing international-based education to its members, providing networking opportunities to create open awareness and dialog in global business.

HIREC is also a part of the **Certified International Property Specialist (CIPS) Network** which is the specialty membership group for the international practitioners of the National Association of REALTORS®. The CIPS network is comprised of real estate practitioners who deal in all types of real estate and focus on the "international" market. CIPS designees travel abroad to put deals together, assist foreign investors, help local buyers invest abroad, or serve an immigrant niche in their local market.

Be a part of Hawaii's global network today!

2019 Membership dues: \$60.00

Deadline: January 1, 2019
